MEN'S DIVORCE MINDSET SYSTEM

ONE BIG GOAL

Worksheet

Design a goal so big that when you achieve it, you'll tell all your friends.

GAIN TOTAL CLARITY

This goal is designed to be so big that when you achieve it, you'll tell all your friends.

The idea is to start to gain total clarity about what you want and this starts in your mind.

Your unconscious mind doesn't know the difference between what is real or imagined.

By following these steps, you'll make your goal more and more real.

STEP 1

Create Your Goal

Ask yourself this question:

What is the one goal I want to achieve with this course, that when I achieve it, I will tell all my friends?

STEP 2

Write Your Goal

Use this format to make it specific and measurable:

I (name) have successfully achieved (goal) by (date).
I feel (list empowering emotions).

> **EXAMPLE:**
>
> *I Alex Morgan have successfully achieved enrolling 1,000 men in this course by December 31, 2026. I feel satisfied, confident, grateful and loved.*

STEP 3

Visualize Your Reward

Think of the last thing that has to happen, so you know you have your goal.

This builds excitement and rewards your mind for achieving your goal.

Create a mental picture with sounds and feelings, so your mind knows this happens.

How will you reward yourself?

STEP 4

Daily Visualization Practice

Spend 5-10 minutes each day visualizing your goal.

Most people say they have no idea how to achieve their goal. Your unconscious mind already knows how.

Visualize your goal and allow your mind to easily and effortlessly reevaluate anything that happens between then and now to achieve your goal.

I commit to visualizing my goal daily.
